Garments may vary in size specification depending on the style and ease allowance but will still fit the body size indicated.

Age is just an approximation of size. The height of the child gives a much better indication of which size to buy.

Adults Sizes: S-XXL / Youths Sizes: XXS-XS

TECH GUIDE

DLX® ECO

Products carrying the DLX® Eco label are designed and manufactured to provide reliable high performance while reducing environmental impact. Working with independent services such as Bluesign® & Thermolite® EcoMade to provide transparent solutions for sustainable materials, we are paving the way for a better future for us and the planet we love.

DLX® MEMBRANE

The DLX® MEMBRANE allows the body's water vapour to pass freely. This reduces condensation inside while preventing rain and snow from penetrating. The membrane is protected by a durable outer-shell and seams are taped to further improve wet weather protection.

DLX® STRETCH

Optimum stretch capabilities, ideal for active, highly mobile pursuits. Waterproof, windproof & breathable, this performance fabric is used to produce a range of taped seamed garments. Supple and durable, functional coatings and surface treatments help repel water and works with your layering system to draw moisture away from your body.

QUICKDRY

Quick Dry fabric facilitates the transport of moisture away from the body. The quick drying action of the material also means the chilling effects caused by damp clothing is massively reduced. As a result you can spend more of your day in comfort.

DLX® SKIN

Intelligent fabric that effectively draws moisture away from the skin. This moisture quickly evaporates when brought to the surface of the fabric, leaving you dry and comfortable.

DLX® ATHLETIC

Designed for the crossover athlete, this capsule collection provides gear that you need to up your game, indoors or outdoors. It gives you comfort and performance when pounding the pavement, track or gym.

DLX® UV

Specially woven fibres shield the skin underneath from the sun's ultraviolet rays, providing an added layer of protection from the elements.

DWR

DWR is a durable water repellent finish which provides added protection from water droplets on the outer layer of the garment.

antibacterial

The antibacterial treatment prevents bacterial growth, maintaining the natural balance of the skin which reduces unpleasant odours. Offering the wearer natural freshness for longer.

WOMEN'S COLLECTION

The Women's DLX Spring Summer 2027 collection builds on a strong design continuity, bringing together technical performance and everyday wearability across a versatile range of silhouettes. Created to support a wide spectrum of activities, the collection moves seamlessly from active outdoor use to casual, lifestyle-led moments, unified by refined detailing and considered material choices.

Lightweight, quick-drying tops, trousers, and shorts form the core of the range, designed for comfort, breathability, and ease of movement in warmer conditions. Ideal for travel, exploration, and active days outdoors, these pieces combine functional performance with a clean, modern aesthetic that feels effortless to wear.

Outerwear continues to play a key role, with DLX Membrane jackets featuring taped seams to provide reliable protection against summer showers. Technical construction is balanced with streamlined styling, ensuring performance-led features are delivered in silhouettes that remain versatile and contemporary.

Completing the collection, softshell jackets and trousers offer adaptable, all-round solutions that extend beyond a single season. Designed for durability and flexibility, they reflect DLX's commitment to creating products that perform across changing conditions and varied lifestyles.

Women's DLX Spring Summer 2027 is a confident evolution of the range — where technical innovation meets relaxed styling, and performance garments transition naturally into everyday outdoor living. A collection designed for movement, adaptability, and modern adventure.

Supporting the outerwear range is a coordinated accessories collection designed to complete the DLX system approach. Technical footwear, functional bags and rucksacks, and performance-led caps and neckwarmers provide practical solutions across a range of conditions, while a selection of durable drinks flasks adds everyday utility for travel and outdoor use. Together, these accessories extend the collection beyond apparel, delivering purpose-driven design across the full DLX offering.

MEN'S COLLECTION

The Men's DLX Spring Summer 2027 collection continues a refined design direction, delivering a cohesive range that balances technical performance with everyday versatility. Built on a strong foundation of functional outdoor essentials, the collection supports a wide range of activities, transitioning seamlessly from active use to casual wear through clean silhouettes, updated details, and durable material choices.

Lightweight, quick-drying tops, trousers, and shorts form the core of the range, engineered for comfort, breathability, and freedom of movement in warmer conditions. Designed for travel, exploration, and long days outdoors, these pieces combine dependable performance with a modern, understated aesthetic.

Key additions for the season include a technical button-down shirt and a performance polo, expanding the collection's lifestyle appeal while maintaining a functional edge. Constructed from technical fabrics with moisture management and ease of movement in mind, these styles offer a smart, versatile option suited to both active and relaxed settings.

Outerwear remains a core pillar, with DLX Membrane jackets featuring taped seams to deliver reliable protection against summer showers. Technical construction is paired with streamlined design, ensuring outer layers remain practical, adaptable, and easy to wear.

Versatile softshell jackets and trousers provide all-round performance across changing conditions. Designed for durability and adaptability, they reflect DLX's commitment to creating products that perform consistently across seasons and activities.

Supporting the outerwear range is a coordinated accessories collection designed to complete the DLX system approach. Technical footwear, functional bags and rucksacks, and performance-led caps and neckwarmers provide practical solutions across a range of conditions, while a selection of durable drinks flasks adds everyday utility for travel and outdoor use. Together, these accessories extend the collection beyond apparel, delivering purpose-driven design across the full DLX offering.
