TECH GUIDE

DLX® ECO

Products carrying the DLX® Eco label are designed and manufactured to provide reliable high performance while reducing environmental impact. Working with independent services such as Bluesign® & Thermolite® EcoMade to provide transparent solutions for sustainable materials, we are paving the way for a better future for us and the planet we love.

DLX® MEMBRANE

The DLX® MEMBRANE allows the body's water vapour to pass freely. This reduces condensation inside while preventing rain and snow from penetrating. The membrane is protected by a durable outer-shell and seams are taped to further improve wet weather protection.

DLX® STRETCH

Optimum stretch capabilities, ideal for active, highly mobile pursuits. Waterproof, windproof & breathable, this performance fabric is used to produce a range of taped seamed garments. Supple and durable, functional coatings and surface treatments help repel water and works with your layering system to draw moisture away from your body.

DLX® DOWN

The natural solution to insulation. DLX® Down has a high ratio of down to feathers. These softer, lighter plumules trap more air for their weight and allow the garment to remain highly compressible and returning to higher volume. Down offers the best in warmth to weight ratio and of course excels in comfort.

DLX® HEAT

DLX® HEAT Insulation is lightweight, durable with a soft lofted fibre layer that holds in your body heat. It also maintains maximum freedom of movement allowing you to stay comfortable in the most arctic of conditions.

DLX® SKIN

Intelligent fabric that effectively draws moisture away from the skin. This moisture quickly evaporates when brought to the surface of the fabric, leaving you dry and comfortable.

RECCO®

AVALANCHE RESCUE SYSTEM

The RECCO® Rescue System is two-part technology. Ski resorts and rescue teams carry RECCO® detectors. The detector sends out a directional search signal, which is echoed by RECCO® reflectors worn by skiers, riders and other outdoors people.

Garments may vary in size specification depending on the style and ease allowance but will still fit the body size indicated.
Age is just an approximation of size. The height of the child gives a much better indication of which size to buy.

WOMEN'S COLLECTION

Level up the alpine game with our High Performance Skiwear section. We're talking RECCO® avalanche protection, waterproofing, insulation, and stretch fabric that's like a second skin. These styles are engineered to make those ski slopes your playground while keeping you safe. Whether it's icy peaks or powdery descents, our skiwear will have you dominating even the fiercest conditions.

Slide into a realm of unmatched warmth and style with our Down & Synthetic Padded Jackets, including our new Primaloft® collaborations. Whether you're conquering frosty terrain or city streets, our Insulated Jackets turn the cold into your personal playground without compromising on style.

Ready to show nature who's boss? Check out our Outdoor Jackets, meticulously designed to battle the elements. Engineered with high-performance waterproof and breathable fabrics, and packing lightweight synthetic insulation, these jackets are like armour against the wild. They're built to last, ensuring you stay comfortable, dry, and agile through every outdoor escapade.

Each section is a testament to our unwavering commitment to gearing up with the absolute best. Welcome to a world where style meets substance, and where outdoor passions and pure performance collide.

MEN'S COLLECTION

Reach the pinnacle of alpine excellence with our High Performance Skiwear section. Incorporating cutting-edge technologies such as RECCO® avalanche protection, waterproofing, insulation, and stretch fabric, these garments are engineered to conquer the most challenging slopes while ensuring utmost safety. From icy peaks to powder-filled descents, our skiwear guarantees uncompromising performance in the harshest conditions.

Slide into a realm of unmatched warmth and style with our Down & Synthetic Padded Jackets, including our new Primaloft® collaborations. Whether you're conquering frosty terrain or city streets, our Insulated Jackets turn the cold into your personal playground without compromising on style.

Discover our Outdoor Jackets, meticulously designed to withstand nature's elements. Engineered with high-performance waterproof and breathable fabrics, and featuring lightweight synthetic insulation, these jackets offer a perfect balance of protection and mobility. They are the embodiment of durability, ensuring your customers stay comfortable, dry, and agile in any outdoor scenario.

In this catalogue, we invite you to explore the culmination of our expertise in outdoor clothing, where innovation meets durability and style meets function. Each section represents a testament to our dedication to outfitting adventurers with the best gear possible. Welcome to a world where performance and passion unite.
