TERMS & CONDITIONS 109

ACITO AB, your friendly sport/toy manufacturer. Located in southern Sweden, only 20min from Denmark, an ideal location for the European market.

We want our products to get people off of their comfy cushions and move around & have fun! Whether they're for professional use or a group of friends doesn't matter, they work for everyone!

ACITO AB is a trustworthy export company with great ambitions, carefully selecting our business partners for a tight and good relationship. From experience throughout our years, we've learned that the best way to introduce our projects to the market is with the great help from professional businesses that share the same spark that we have.

We continuously research and develop new items for sports, making us a very attractive choice for a business that strives to be ahead of the curve.

New business cooperations and partners are something that we're always greatly interested in and we'll gladly discuss eventual associations with you.

Your Acito Team

All plastic polymers and masterbatch are free from bisphenol A, phthalates, PVC & antimicrobial additives.
Packaging by FDA and meets the demands of the EU directive No 10/2011.

10 FEET
3m

THE LENGTH

It is important to choose the right length. If the stick is too short it can put unnecessary strain on your back.
A stick that's too long will lead to worse control of the ball. You can measure if a stick is the right length for you by holding the stick upright with the blade touching the floor. The top end of the stick should be about 5-10 cm above your belly button.

PLAYER LENGTH	TOTAL STICK LENGTH
110-130 cm	75-79 cm
120-140 cm	80-84 cm
130-150 cm	85-89 cm
140-160 cm	90-94 cm
150-170 cm	95-99 cm
160-180 cm	100-104 cm
170-190 cm	105-109 cm
180-200 cm	110-115 cm

THE FLEX

Flex is a measure of how much the shaft will flex when exposed to a specific force. The higher value means that the stick bends more and the player has better control of the ball. A lower value means that the stick is more rigid and a strong player can shoot away the ball with more force.

THE HOOK

This describes how the blade is curved. Right-handed players
generally favor a stick with left hook, while left-handed players prefer a stick with right hook.

GENERAL These terms and conditions set out the basis on which the costumer can place orders for items from ACITO AB and will apply to any contract between you and us for the sale of goods.

PRICES ACITO AB reserves the right to change prices. Prices at the time of placing an order are valid throughout the buying process. *At times where software or human errors for instance list products with an obvious faulty price, ACITO AB reserves the rights to cancel the order - notifications will be given.
All prices: VAT and delivery charges excluded.

PRODUCT INFORMATION ACITO AB reserves the right to change its stock availability on the site and to remove items from the product range before a purchase has been registered. We do our best to make sure that all of the content on our site is correct. However, as we are only human, we reserve the right that unintentional errors may occur. Colors on your computer screen are not always 100 % accurate.

DELIVERY All delivery times are dependant on stock being available and because of this we cannot guarantee delivery times for any item. We will always inform you immediately of any delay. If delivery is delayed due to any cause beyond our reasonable control, the delivery date will be extended by a reasonable period and we will contact you to arrange an alternative time. You will have the option either to wait until the item is available from stock, cancel your order or accept a suitable alternative product.

RESERVATION OF PROPRIETARY RIGHTS ACITO AB reserves ownership of the delivered goods ("reserved goods") until complete payment of all current and future claims, resulting from the delivery relationship and other existing business relationships with the customer, have been met. The customer is obliged to treat the reserved goods with care and to insure these goods at its own cost, in particular against damage by fire, water, or theft.

FREIGHT COSTS Delivery charges vary according to the type of goods ordered and cannot be refunded.

RETURNS You have the right to exchange or receive a full refund on the items you have purchased within 14 days of their delivery. Exchanges and refunds are issued providing the garment/product has not been used and is not damaged. Original Wrapping must follow the return. Refunds will be paid to your bank account and normally take 4 to 6 business days after we received your return. You are responsible for the return shipping costs. For our warranty info, please see below.
How to return or exchange an item:
- Write a short note where you tell us the reason for your return
- Send us the product(s) you want to return, together with the short note to the following address:
- If you are uncertain about how to customs declare your return please contact us here.

TRANSPORT DAMAGES / DEFECTS Despite use of good packaging, and the efforts of everyone involved to always provide you with goods in perfect condition, transport damage can unfortunately still occur. In that case we will refund you the damaged items free of charge. It is therefore extremely important that you inspect your goods for damage when received. Where possible document any damage found and record this in the transport/shipping documents. This is absolutely vital for later regulation of any issues. Should any product received by you suffer from transport damage, please inform us as soon as you discover it.
We require the following information/papers:
- Transport/shipping documents with corresponding notes on the damage and confirmation by the driver
- Information regarding which shipment and which goods are affected (e.g. copy of delivery note)
- Information regarding the type of damage (include photos if available)
- Further procedure (return, replacement, repair, delivery date agreement)

CHANGES TO LEGAL NOTICES ACITO AB reserves the right to change these terms and conditions from time to time and you should look through them as often as possible.
