ABOUT US

Over 30 Years of Experience

Jilong is a leading manufacturer and exporter of plastic leisure products, with over 30 years of expertise in R&D, quality manufacturing, and global sales. Guided by practicality, innovation, and efficiency, we operate modern facilities supported by strong infrastructure and a stable, skilled workforce. Located within 300 km of Shanghai, our integrated production capabilities cover PVC film, lamination, printing, welding, packaging, and accessory assembly, enabling us to deliver reliable quality and competitive costs.

VERTICALLY INTEGRATED

JILONG has established a vertically integrated production system from raw materials to finished products, covering PVC film, silkscreen printing, high-frequency welding, sewing, packaging, and assembly.

WORLD WIDE VISION

JILONG distributes its products to major retailers in over 50 countries and regions, including Europe, North America, Australia, and Asia. This strong international presence has made us a trusted global supplier of plastic leisure products.

INNOVATION DRIVEN

JILONG's R&D team develops hundreds of new products each year, focusing on design, quality, and compliance with international standards. We closely monitor global market trends and safety regulations, while our in-house laboratory rigorously tests and verifies product performance.

PRODUCT &BRANDS

Five Sub-Brands One Diverse Leisure World

JILONG proudly offers a diverse portfolio of five distinctive sub-brands, each focused on a unique lifestyle and product category. From the relaxing spa and air bed experience of Avenli, to the adventurous spirit of Zray paddle boards, the fun and excitement of SunClub water toys and pools, and the durable leisure sports products of Pathfinder, our brand family serves a wide range of consumer needs and lifestyles—ensuring that everyone can find something to enjoy.

SAFETY & QUALITY

QUALITY ASSURANCE

Throughout the entire production process, we apply a fully traceable quality management system. Records and image documentation are captured at every key stage, including incoming raw material inspection, testing of restricted substances, product durability testing, in-line quality monitoring, finished product inflation inspection, and container loading. This ensures that every shipment meets relevant safety requirements and that our products are reliable and consistent.

High-quality PVC materials used in production

State-of-the-art in-house laboratory and cooperation with third-party testing institutions

Durability Testing

Tightly controlled production process

24-hour inflation test before packing, with random inspection before shipment

Container loading records and photos

REGULATORY COMPLIANCE

We maintain close cooperation with internationally recognized testing institutions and stay up to date with the latest regulations and standards. This helps ensure that our products comply with the laws and safety requirements of the markets in which they are sold, protecting consumers and supporting reliable global distribution.
